

Hope It Don't Snow Show - Registration

Registration is a simple **four step process** which facilitates entering, displaying, viewing and judging models. It is encouraged that forms be completed prior to arrival to ensure models are given due consideration the day of the show.

Registration fee is \$15.00 for *any number* of models.

No charge for youth registration.

Admission to the show for spectators is free.

Please print clearly on all forms as the judges will need to be able to read your name and the model name.

In an effort to facilitate a smooth registration process and to help judges read information on registration forms, those *attendees who bring pre-typed registration forms will be given one raffle ticket/attendee* as a token of our appreciation.

Step 1: identify an entry category for each model.

The Hope It Don't Snow Show recognizes ten model categories irrespective of scale (1:35, 1:48, 1:72, etc. does NOT matter). Figure out the category number for each model.

Category Model type

- | | |
|----|--|
| 1 | Aircraft |
| 2 | Armor |
| 3 | Automotive & Motorcycle |
| 4 | Maritime |
| 5 | Figures |
| 6 | Diorama |
| 7 | Science Fiction |
| 8 | Gaming Miniatures |
| 9 | Miscellaneous (real space, humor, other) |
| 10 | Youth (up to age 17) |

Step 2: Complete one category form for each category of models entered.

For example, if entering four aircraft, two automotive and one figure, three individual category forms will need to be completed: a Category 1 aircraft form (listing four aircraft

entries), a Category 3 automotive form (listing two automotive entries) and a Category 5 figure form (listing one figure). You'll have a form for each category of models you're entering.

Use additional category forms if entering a large number of models in a particular category and they don't fit on one form.

Don't worry about the ID column. The ID for your models will be assigned at registration the day of the show.

Step 3: Complete an individual model entry form *for each model entered.*

A model entry form is placed next to each model and displays the model name and scale, kit manufacturer, and a brief description informing judges and attendees of your work. You can bring your own documents, but you'll still need one of these for every model you enter. The model entry form also contains the entrant's name and contact information.

A unique model entry ID number will be ***assigned on the day of the show*** when you register.

Find the category table for your model entry category and place your model there. You can do this before registration but make sure you get the model entry form filled out and number assigned if you are entering in the show.

Make sure to place the model entry form next to your entry!

To assure anonymity during judging please fold under personal information section of the form.
